Instructions

Fill in the white squares with the correct letters using the numbered clues. Solutions at the back of the book.

The first crossword puzzle — called a "word-cross" — was created by journalist Arthur Wynne and published in the New York World newspaper on December 21, 1913. It was an instant sensation: by the 1920s, the crossword craze was so widespread that some libraries had to limit dictionary use to five minutes per person so everyone could get a turn. Unlike Sudoku, crosswords exercise vocabulary and long-term memory retrieval rather than pure logic. A long-running study from Massachusetts General Hospital and the Albert Einstein College of Medicine found that adults who regularly solve word puzzles like crosswords perform on memory and processing-speed tests as if they were roughly a decade younger.

Tip: Spending 15-20 minutes a day on cognitive activities improves concentration, memory and overall wellbeing.
